DESCRIPTION

Factual Description

The purpose of a factual description is to provide the characteristics and features of a real thing, person, place or idea. A factual description does not contain the feelings of the writer.

In this paragraph, the sentences are not marked. Work out where each sentence starts and change the first letter to a capital and add a full stop at the end. *Hint: there are 10 sentences*

a gyroplane is a cross between a plane and a helicopter due to new technological advances this type of aircraft is becoming cheaper and more available the gyroplane has a top rotor with two blades a propeller is mounted at the back the body section is egg shaped with 4 large windows it has a subaru 2.5 litre engine the cockpit has two comfortable seats with space for cargo behind them each seat has a full set of controls and instrumentation so that either passenger can fly it there are three small wheels - one at the front and two at the back the gyroplane can fly around 500 kilometres before refuelling

Research a new invention and write a factual description below.
